

REMARKS

In accordance with the foregoing, the specification and claims 8, 9, 11, 13 and 15 have been amended and claim 7 has been cancelled. Claims 1-6 and 8-15 are pending and under consideration.

The Examiner objects to the specification asserting that the Axcelis GSD platform implanter described in original claim 7 must also be described in the specification. Paragraph [0018] of the specification has been amended to add such a description.

The Examiner objects to the drawings. The Examiner asserts that they fail to disclose the Axcelis GSD platform implanter, which is claimed. However, Fig. 1A shows an ion implanter, which may be an Axcelis GSD platform implanter. Furthermore, claim 7 has been cancelled, thus rendering the objection moot.

Claim 7 is rejected under 35 USC § 112, first and second paragraphs. Claim 7 has been cancelled.

Claims 9, 13 and 15 are objected to. The Examiner asserts the term "faraday" is a unit of measure, not a measurement device. Applicants respectfully disagree. Of course a faraday is a unit of measure equivalent to 96485 coulombs. However, a faraday is also a measurement device. Enclosed is a discussion of one possible faraday from www.casetechnology.com. In the objection, the Examiner asserts that the term "faraday" modifies a noun, such as a disk, a cup or a cage. Perhaps this indicates that adding the term "disk" to the claims would eliminate the objections. Disk faradays are described throughout the application. The claims have been amended to uniformly use the term "disk faraday". In view of the enclosed materials, the above discussions and the claim amendments, it is submitted that the objection should be withdrawn.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
